Subject: RE: funding opportunity

Julie , I don't have an electronic copy of that email. I do have a hard copy of the letter that Dr. DeMaria sent to John Wortmann on August 10, 2006. It estimates and requests the following costs to do Federal samples.

Equipment.....\$45,000 FTIR
Supply Cost..... \$500-\$1,000
Labor Cost.....\$9,000-\$12,000

We can expect the labor cost to be on the higher end now due to pay increases over the last two years.
Hope everything went well with the knee, and we'll see you next week.

Chuck S.

Subject: funding opportunity

Hello,

I spoke with Martha Wyatt at US Atty Glenn mackinlay's office on Monday. they may have some funding for us as part on the Project safe neighborhood grant monies. Martha asked for a copy of the proposal Cam wrote a few years ago, very short mostly OT and and IT, if i remember correctly. I have this saved to my computer at work and won't be back to the lab until Monday at the earliest (knee surgery earlier today).

Do either of you have a copy that you can email to me? we can take a look to see if it is still relevant in 2008. If not, I'll put something together when I get back.
thanks,
Julie
